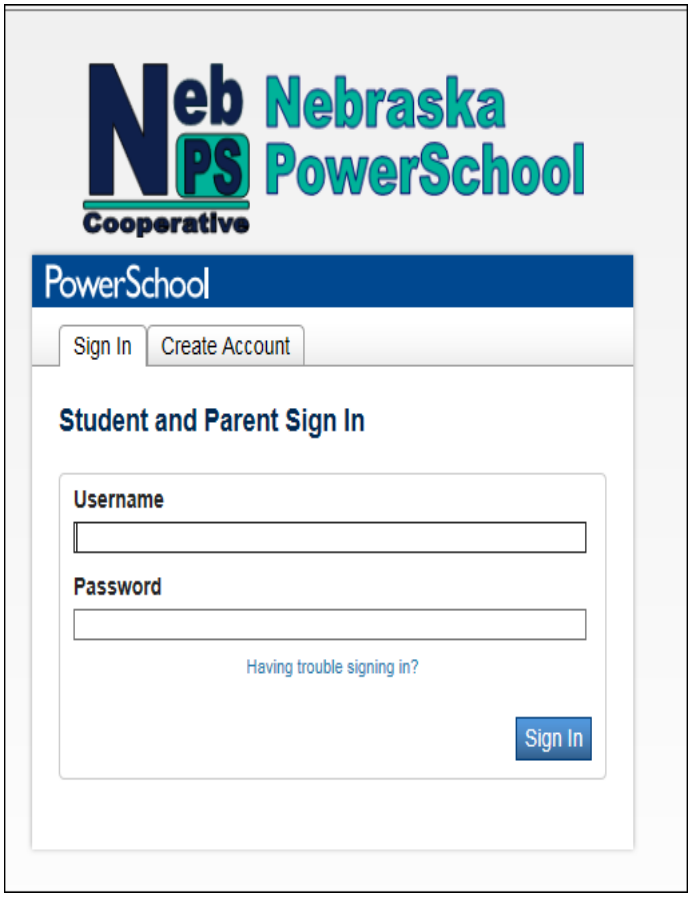
**How To Up Single Sign On for PowerSchool Parent Portal**

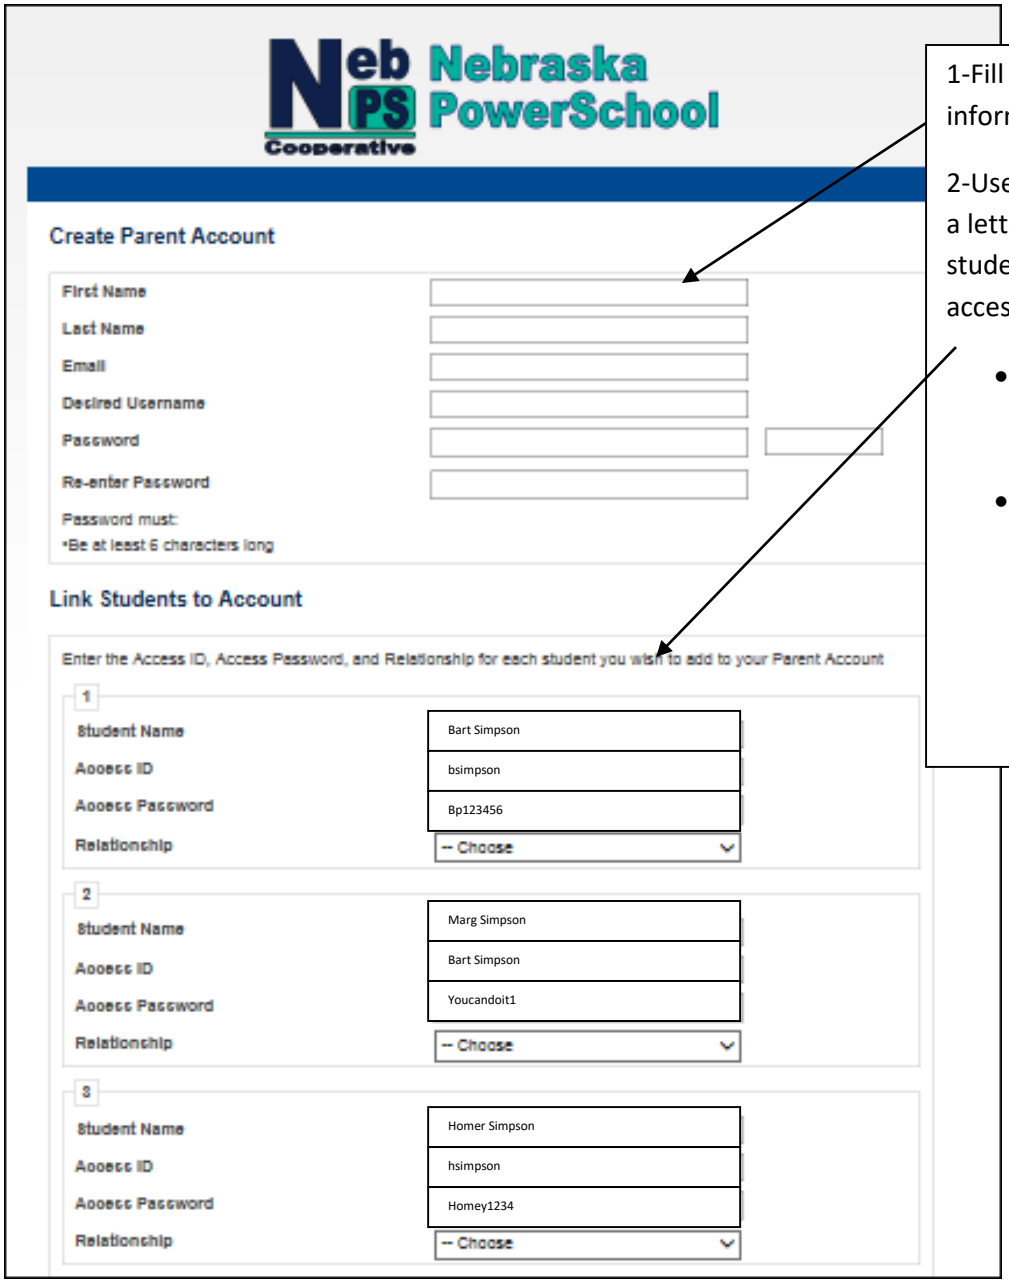
PowerSchool recently introduced a new login system called Single Sign On (SSO). SSO gives parents quicker and more convenient access to PowerSchool data. SSO allows parents and guardians to set up their own individual login credentials and, for those with multiple students in the district, access to all their students' information with a single login. In addition, SSO allows users to retrieve forgotten login and password information themselves rather than requiring a call to school.

PowerSchool has also released PowerSchool iOS and Android apps for mobile users. Use of the mobile apps requires that SSO be in use. Once SSO has been turned on, the Mobile Apps will become usable.



https://tricountyschools.org

You'll see the usual login slots plus a new option to "Create an Account".



1-Fill in the parent account information

2-Use the information provided in a letter by the district to fill in the student name, access id, and access password.

- Each student will have a different access id and password.
- The district provided you a letter for each student. Please refer to that sheet. If you do not have a letter for your student please contact the school.
