

Tri County School District Title I Schoolwide Program

Tri County elementary school, grades K-6 has developed a Schoolwide Plan through needs assessment which includes state assessments and results. Data shows growth is needed in the area of reading and writing as a focus for future instruction and learning.

The plan was developed by a schoolwide committee and is reviewed annually. The schoolwide plan is reviewed by other districts as well every three years. All changes are discussed with any and all stakeholders. A great focus is given to the continuous improvement goals of Tri County Schools. A Title I meeting is held annually for parents, faculty and other stakeholders. The Every Student Succeeds Act (ESSA) requires the posting of this information to our website. Please contact Jesse Gronemeyer if you have any questions.
